

Combien mesure un requin-baleine ?

Plus long qu'un  
mérrou géant...

mais plus court qu'un  
siphonophore.

Combien pèse un requin-baleine ?

Plus lourd que cent dauphins communs...

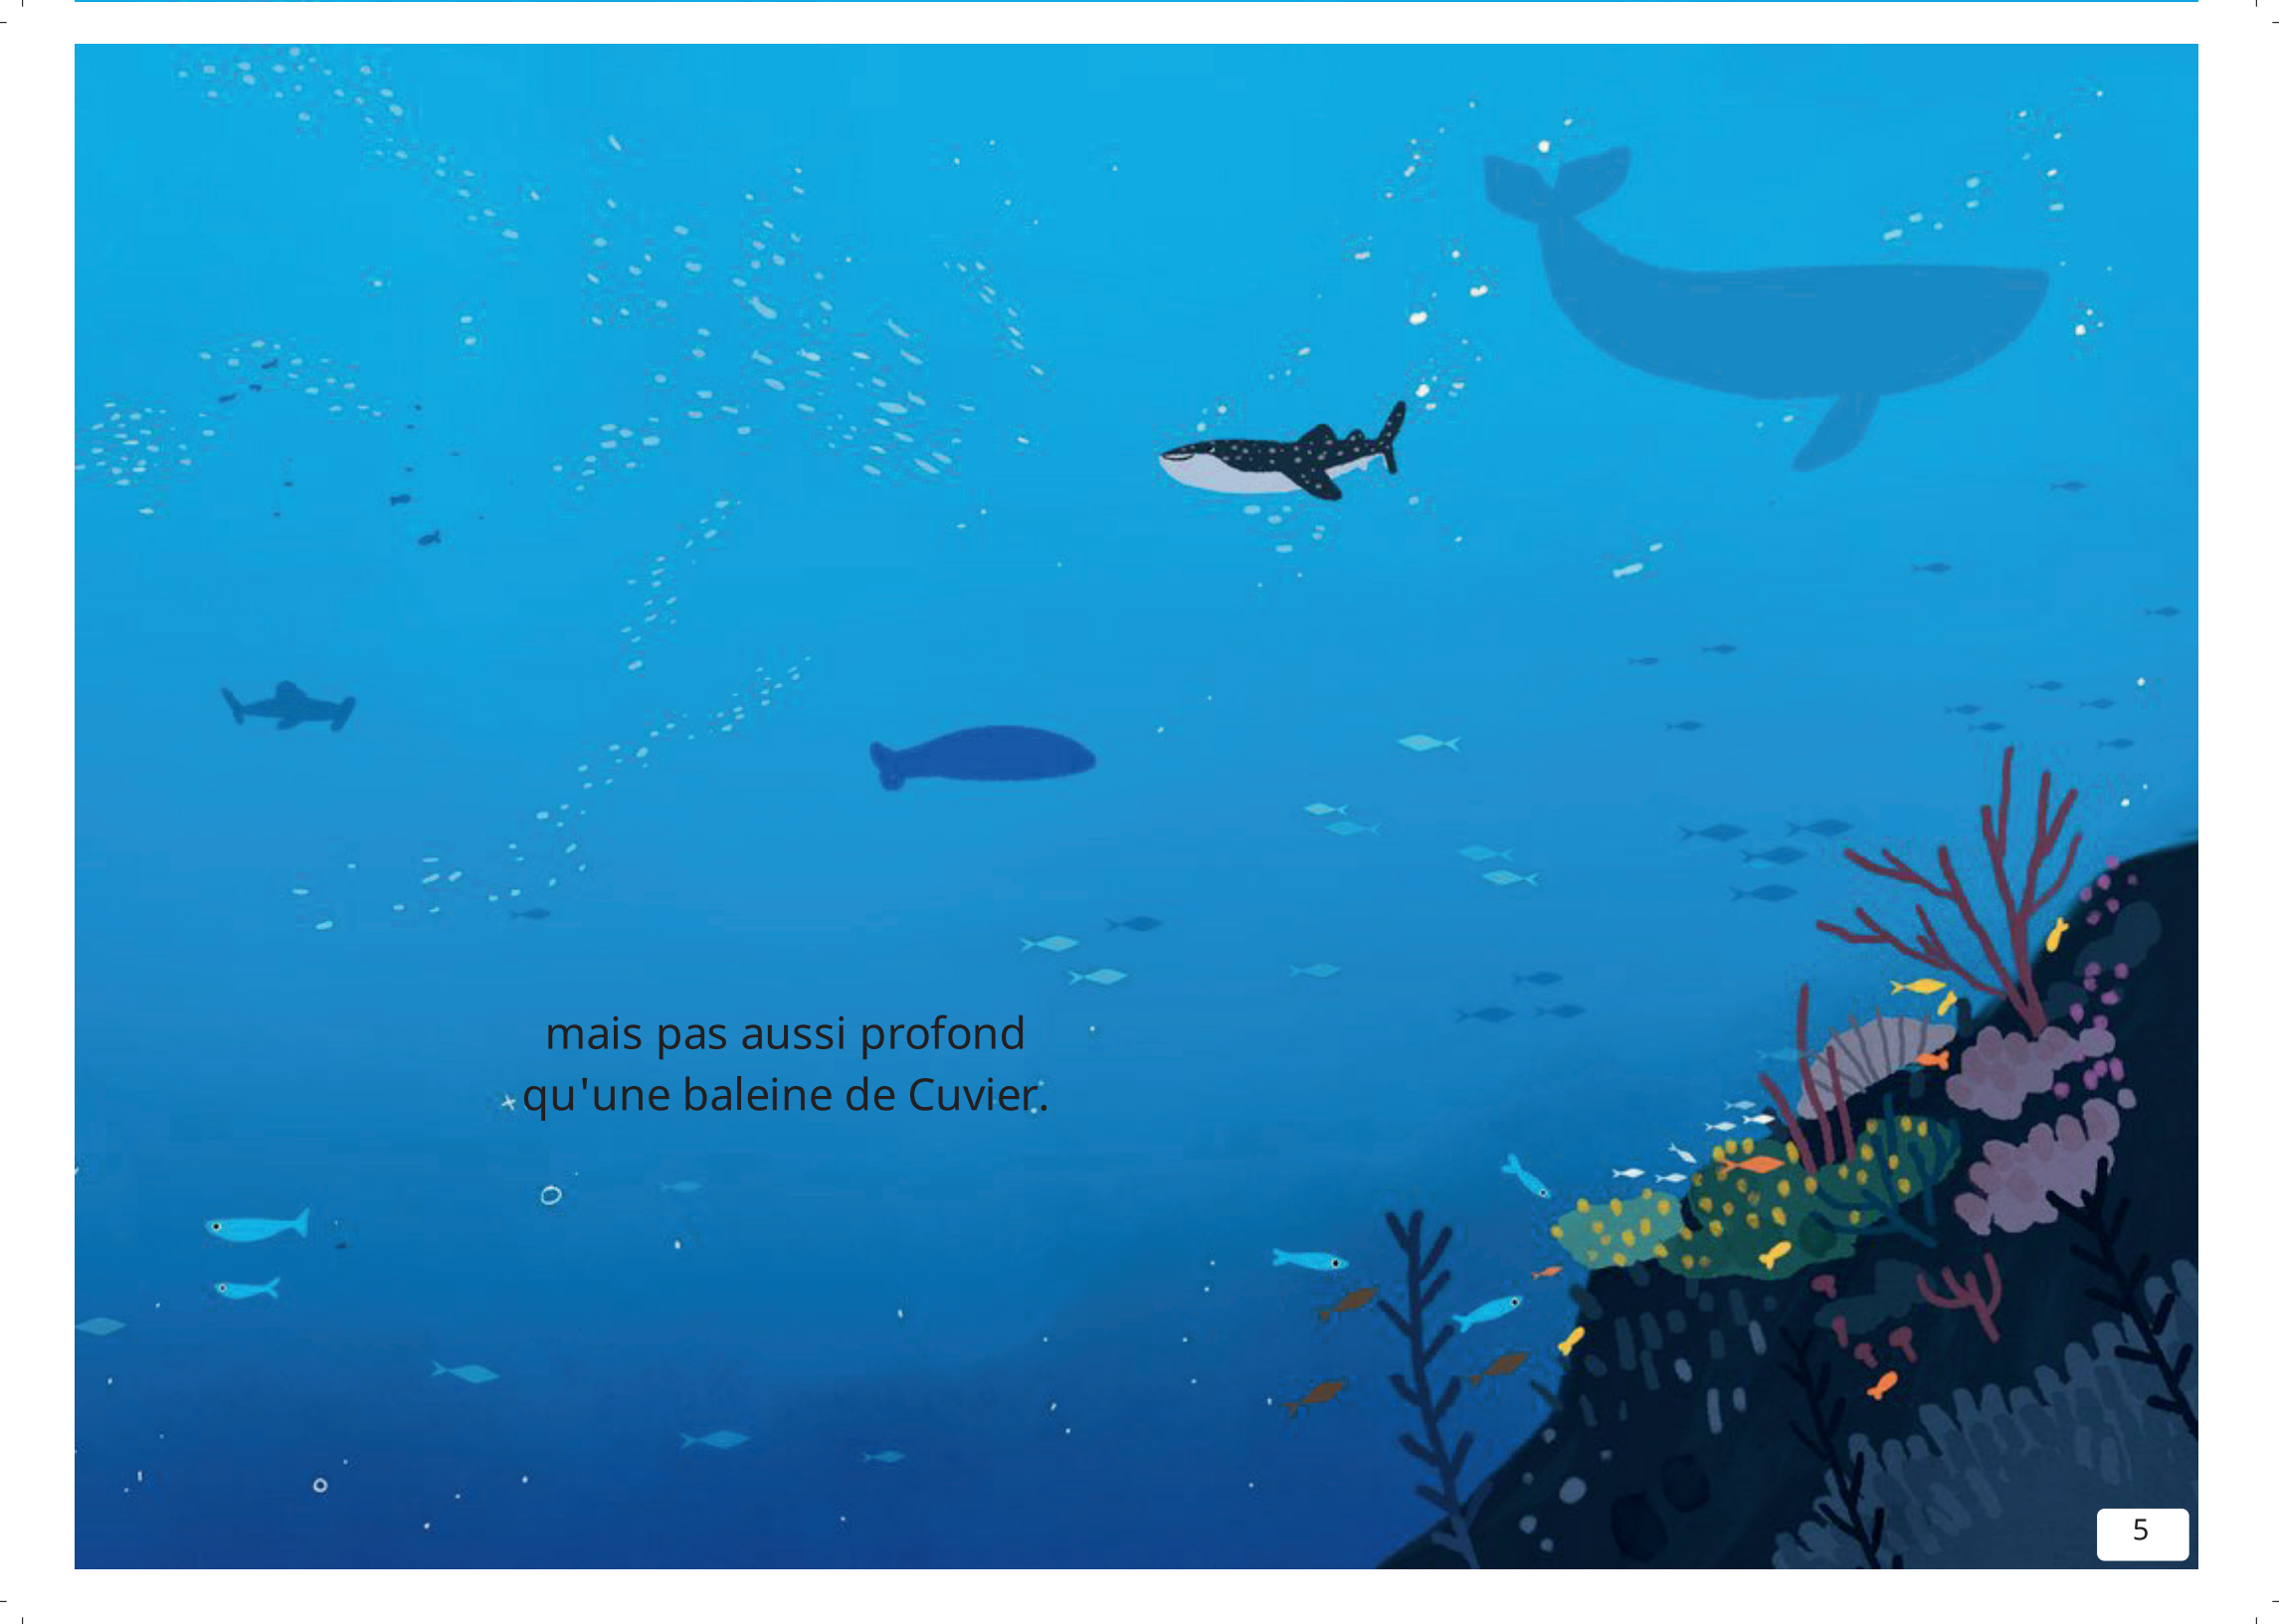

mais plus léger qu'une baleine à bosse.

An illustration of an underwater scene. In the upper right, a large blue whale shark swims. In the middle right, a manta ray swims. In the lower left, a vibrant coral reef is shown with various colorful corals and small orange fish. The background is a deep blue ocean with many small blue fish and bubbles.

À combien de profondeur peut plonger  
un requin-baleine ?

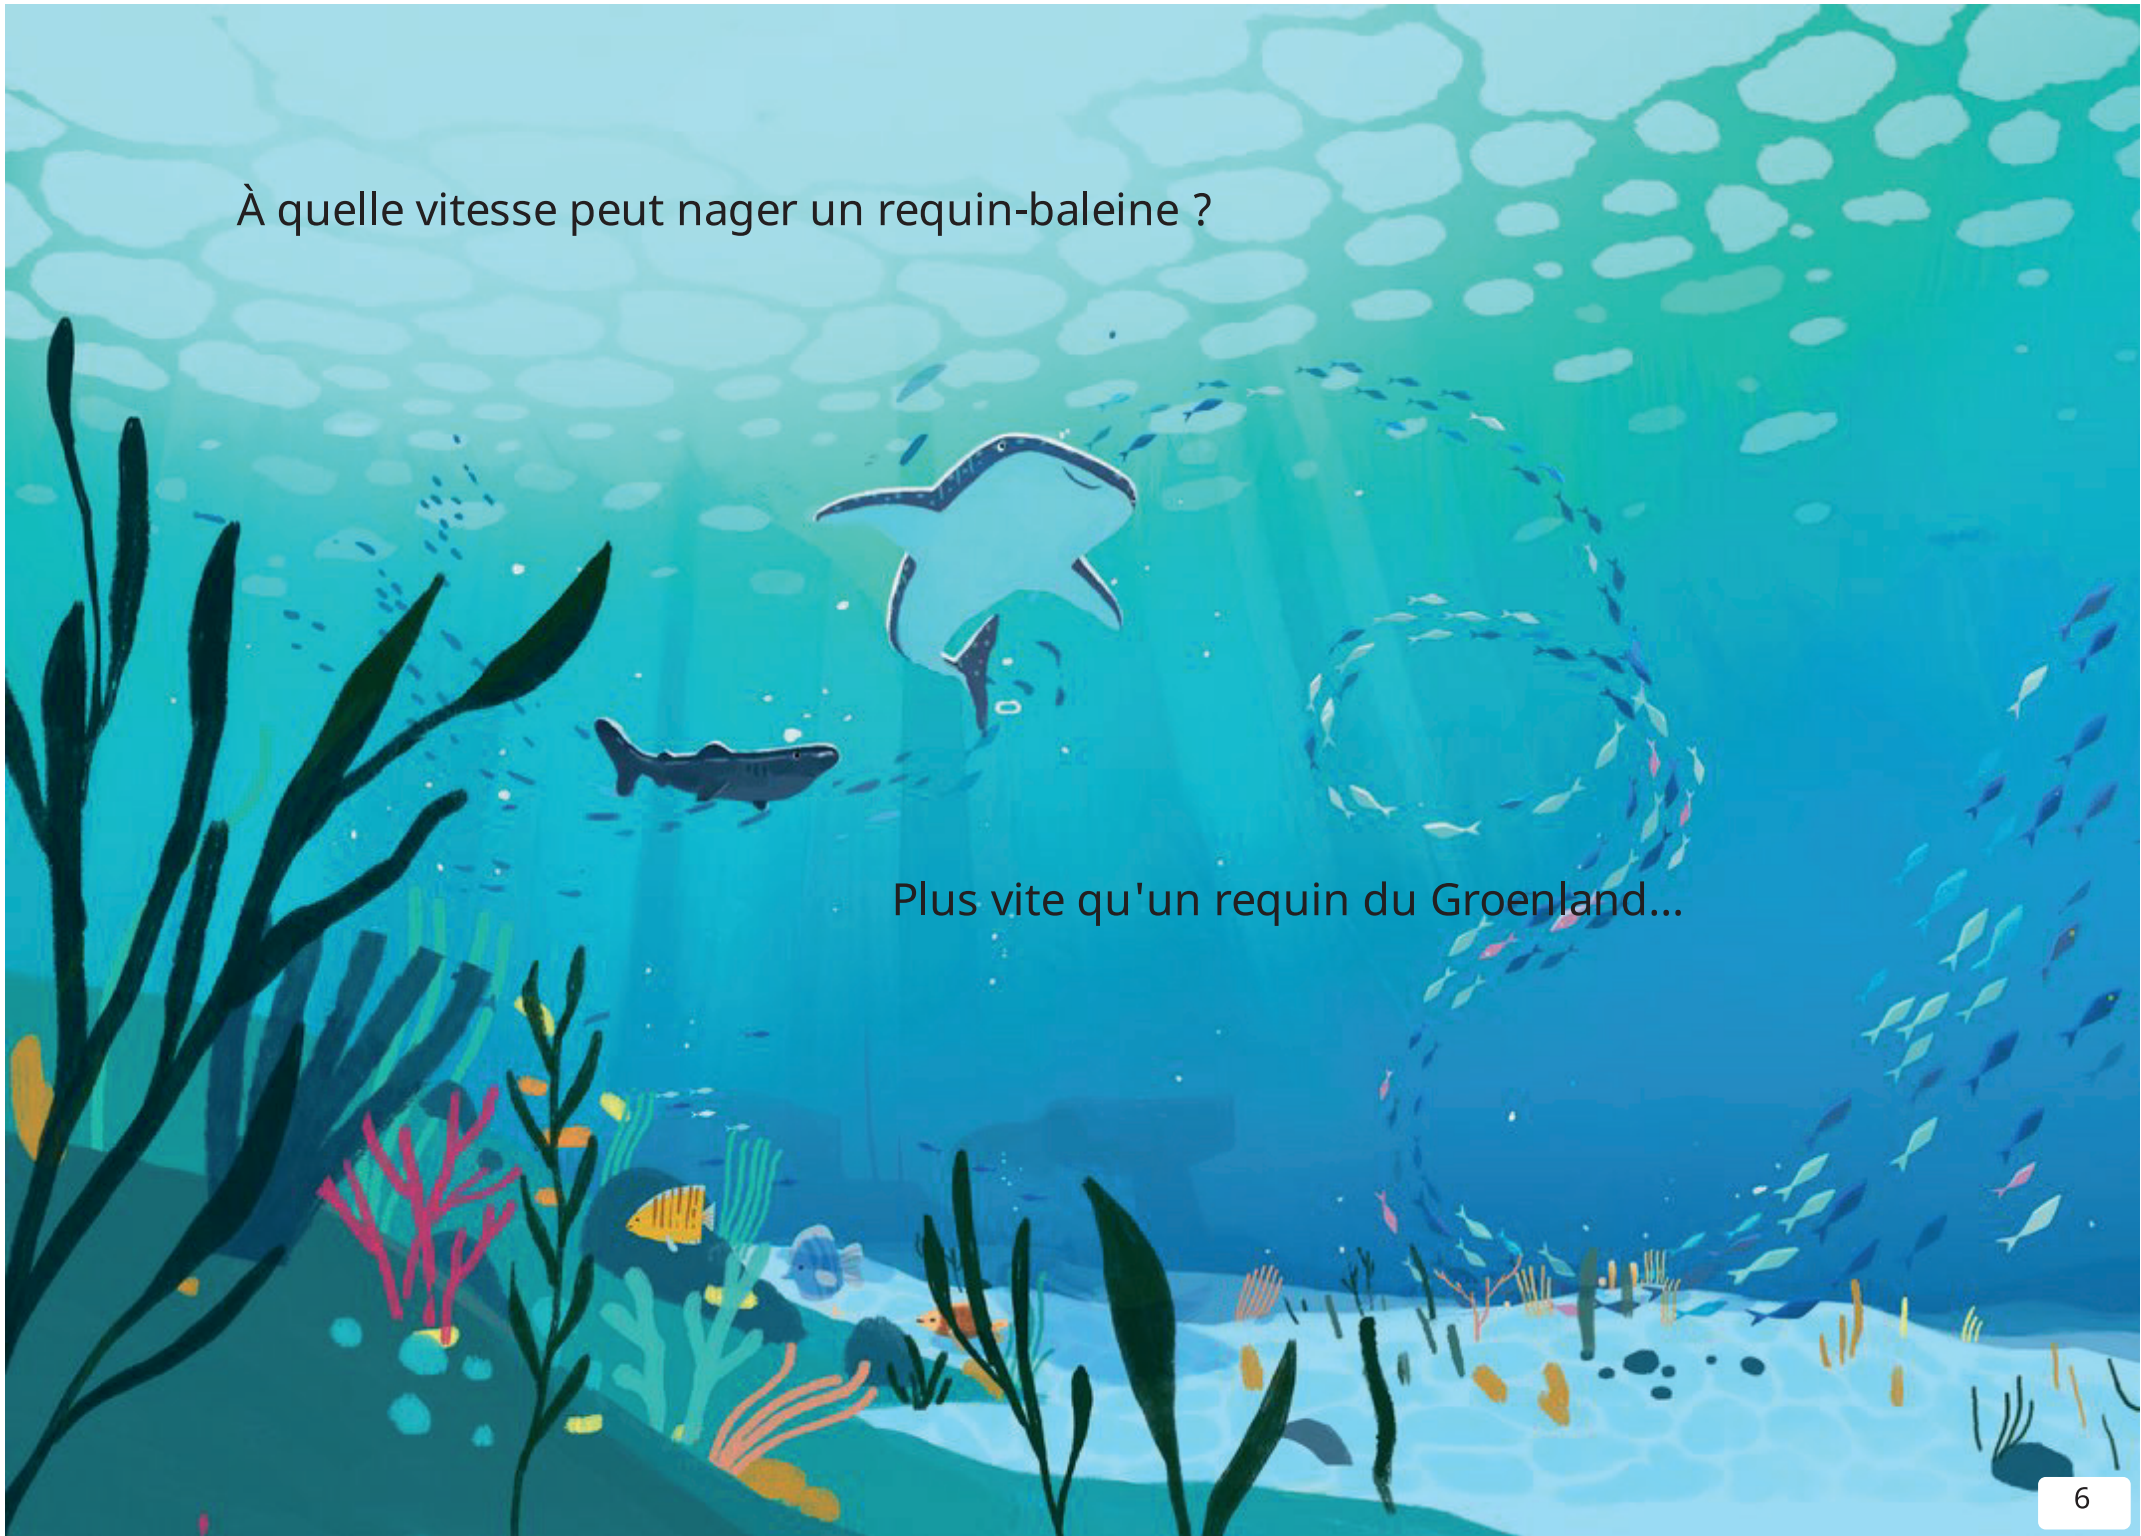

Plus profond qu'une raie manta...

An illustration of an underwater scene. The background is a deep blue gradient. In the upper right, a large, dark blue whale swims. Below it, a smaller whale with a white belly and dark spots swims. The water is filled with numerous small, light blue fish, some swimming in schools. In the bottom right corner, there is a dark, rocky seabed with colorful coral and sea anemones in shades of red, orange, yellow, and purple. A few small, colorful fish are swimming near the seabed.

mais pas aussi profond  
★ qu'une baleine de Cuvier.

À quelle vitesse peut nager un requin-baleine ?

Plus vite qu'un requin du Groenland...

An illustration of an underwater scene. In the upper center, a shark with a white belly and dark spots on its back swims towards the right. To its left, a large school of small blue and yellow fish swims in a curved path. The background is a deep blue with light blue circular patterns representing light filtering through the water. In the foreground, the seabed is sandy and covered with various sea creatures: a yellow fish with a crown-like fin, a red crab, a blue crab, and several small brown fish. There are also various types of seaweed and coral in shades of green, yellow, and blue.

mais moins vite qu'un espadon.

An illustration of a vast blue ocean. In the center, a large blue whale swims towards the right. To its right and slightly below, a much smaller whale shark with white spots swims in the same direction. Several seagulls with white bodies and dark wings are scattered across the sky and water. The water is depicted with various shades of blue and white splashes, suggesting movement and depth.

Quelle est la taille d'un requin-baleine ?

Plus petit qu'une  
baleine bleue...

mais plus grand  
que tous les poissons de l'océan.

Les comparaisons nous aident à évaluer et à comprendre le monde qui nous entoure.

Voici quelques façons de comparer :
